Karl –

Hope your summer is going swimmingly. Wondering if you are in the loop on recent correspondence (attached) between R10 and two of the PRPs (Port and County) regarding the need for finality in the forthcoming Proposed Plan and ROD for the East Waterway OU. It seems like there is a need for some strategic thinking here, perhaps even to identify a mutually acceptable middle road between the “wait and see” approach that R10 staff appear to be advocating, and the ARAR waiver approach that the PRPs have suggested, to get this final remedy going. Any chance you have any time and bandwidth to discuss this? If so, let me know days and times that work – shouldn’t take long. Cheers -

Clay Patmont

Subject: Sediment Management Standards Statement by EPA

Tom, Elizabeth, Kristie and Tad ,

I am attaching the Sediment Management Standards Statement that United States Environmental Protection Agency committed to provide to the Port of Seattle, City of Seattle and King County during our meeting on May 29, 2019.

Please let me know if you have any questions.

Thanks you,

Richard
